## Paws for the President

The Christmas Party and Awards Presentations have been completed for another year. Members of Monterey Bay DTC have continued to get the best from their pets in an ever-widening range of activities this past year. With the expanding opportunities it is really obvious that Monterey Bay is truly a TRAINING club in the expanded sense of the word. We were proud to present awards across the training spectrum. Congratulations to all members who completed titles and to those who earned legs on the next title. We are proud of all of you.

Members should take the time to thank those that saw to it that the Awards ceremonies were offered. A vote of thanks to the following: **Betty Garcia**, chairman of the Christmas party; **Kim Sutherland** and **Dennis Vierra** co-chairman of the Awards Committee with helpers **Dale Root** and **Christy Thomas** and **Scott Lindberg**; Silent Auction and Doggy Gifts were organized by **Dani Nelson** and **Marion Bashista**; Program **Lynnette Smith** and **Pam Strametz**.

Nice touches to make the evening special included cake, cute place cards, and very charming reindeer cookies for each dog completing a title...Thank you for the special efforts.

## January 19 General Meeting

# Christmas Dinner 2001

Betty "B.G." Garcia

I would like to thank everyone who came to our Christmas party. It's great to see people come together to have fun and enjoy congratulating those who had through the year succeeded in earning titles and the awards the Club gives out.

A special thanks to the following people who helped put this party together: **LeVaun Sheetz** for making the name placements and **Verta Strametz** for making some phone calls for me.

I would like to thank the group of people who put on a great Awards Program for us: **Dennis Vierra** for cutting the ornaments, **Kim Sutherland** for getting all the pictures and info on the awards, and to **Pam Strametz** for organizing the program at the last moment for **Lynnette Smith**, who couldn't make it.

# Christmas Dinner 2002

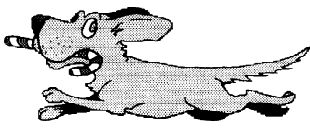

Betty "B.G." Garcia

I know it's early to start talking about next year's dinner, but I have been asked to check into other possible places to have it.

So I would like your input on what and where you would like it. I have heard from some of the members that they would like us to go back to Severino's.

If we go to a place that doesn't decorate for Christmas, then we need people who would be willing to go and decorate the room that afternoon and clean up after the party.

If you have any ideas, please contact me at class on Tuesday nights or call me at 722-1748 by the end of February.

### "Miraculous" Pesticide

From SF Chronicle 12/08/01 by

**Richard Fagerlund**

(board certified entomologist,  
U. of New Mexico)

There is a new product on the market from China which advertises that it: "Kills cockroaches and ants effectively. Harmless to human being and animal. Safe to use." It goes under the name of Miraculous Insecticide Chalk. (MIC)

According to the above-named entomologist, it is not harmless. It contains Deltamethrin, a very dangerous pesticide. Children who have put MIC in their mouths have been hospitalized. The product, he says, is imported illegally from China; and the claim to harmlessness is false. Further, he reminds that no pesticide not having an EPA

Registration number should ever be used.

You can find more information on Miraculous Chalk and other illegal pesticides on the EPA's web site at [www.epa.gov/region02/health/chalk.htm](http://www.epa.gov/region02/health/chalk.htm).

## Auto Accident Again Touches Fancy

Luane Vidak

**Terry Southard** was involved in a serious auto accident. I'm told her vehicle overturned, sending her to the hospital with injuries. *Pepper*, her Golden Retriever, was killed, *Dixie* her pup was lost for some time but was recovered, and the third dog was uninjured. Fortunately, Terry's injuries are reported to be minor. One can only reflect, despite the sadness of losing *Pepper*, that **Terry** and **Steve** have much to be grateful for this holiday season. If you would like to contact them, their address is: **Terry and Steve Southard**, 1465 Gerlach Drive, San Jose, CA 95118

## E-mail Buddy System

Luane Vidak

Much of the communication in the club is done by e-mail via the computer these days. Members who do not use computers are feeling left out of the process. It would be very much appreciated if those with computers and those without would form a buddy system to print out and share the various e-mails directed to the general membership.

## Morris Walkathon Date Change

Luane Vidak

Because of an Agility event scheduled locally on February 10-11, 2002, the Board has moved the date of the annual Morris Animal Foundation Walkathon to Saturday, February 16. Here's hoping for a lot of member interest in supporting the big supporter of animal health research. Save the day!

# School Stories

From the Internet  
via LeVaun Sheetz

The children had all been photographed, and the teacher was trying to persuade them each to buy a copy of the group picture. "Just think how nice it will be to look at it when you are all grown up and say, 'There's Jennifer; she's a lawyer,' or 'That's Michael, he's a doctor.'"

A small voice at the back of the room rang out, "And there's the teacher; she's dead."

# Surprise!

from the Internet via Pam Strametz

It was the end of the school year, and a kindergarten teacher was receiving gifts from her pupils.

The florist's son handed her a gift. She shook it, held it overhead, and said, "I bet I know what it is. Flowers." "That's right!" the boy said, "But, how did you know?" "Oh, just a wild guess," she said.

The next pupil was the sweet shop owner's daughter. The teacher held her gift overhead, shook it, and said, "I bet I can guess what it is. A box of sweets." "That's right, but how did you know?" asked the girl. "Oh, just a wild guess," said the teacher.

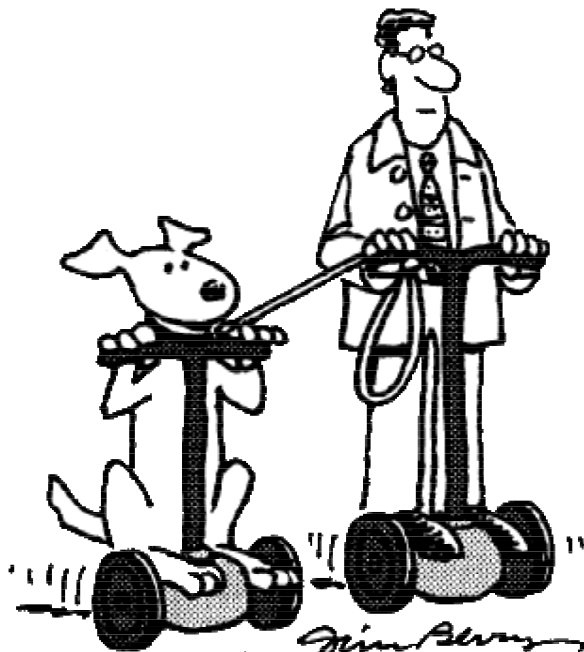

The next gift was from the son of the liquor storeowner. The teacher held the package overhead, but it was leaking. She touched a drop off the leakage with her finger and put it to her tongue. "Is it wine?" she asked. "No," the boy replied, with some excitement. The teacher repeated the process, tasting a larger drop of the leakage. "Is it champagne?" she asked. "No," the boy replied, with more excitement. The teacher took one more big taste before declaring, "I give up, what is it?" With great glee, the boy replied, "It's a puppy!" SURPRISE!

# A Sweet Killer

via *Dog Fancy*, October 1998

Danger hides in winter on roads and driveways, and while you may never see it, your dog's nose can find it—antifreeze. Many animals, including dogs, are drawn to its sweet taste. Unfortunately, most antifreeze contains ethylene glycol, a highly toxic chemical that crystallizes in the kidneys, causing irreparable damage and renal failure. Just 2 ounces can kill a dog, and by the time poisoning symptoms appear—vomiting, lethargy, excessive thirst and drunkenness—it is often too late to administer an antidote.

To protect your dog:

1. Clean up antifreeze spills and leaks immediately.
2. Supervise your dog around driveways and parked cars, and walk dogs on leashes.
3. If you suspect your dog may have ingested antifreeze, take it to a veterinarian right away. Do not wait for symptoms to appear.
4. Educate pet sitters about the danger, and keep your veterinarian's phone number handy.
5. Replace ethylene glycol-based antifreeze with propylene glycol-based antifreeze. Propylene glycol is less toxic and tastes bitter, making it less appealing.

# Breed Specific: Golden Retriever

Relaxed but responsive, calm but alert, sensible and serene, the Golden is, in many ways, the ideal family companion. This affection-demanding, multi-purpose, easy to train, and attractive breed is even more popular in North America and Scandinavia than in its native Great Britain. Bred to retrieve waterfowl, it has a gentle mouth and will rarely snap or bite—it is especially patient with children. Different breed lines have evolved for different purposes. One variety works as a gundog, another has been developed for use in field trials, while the largest line is devoted to the show ring and family life. A fourth breeding line has produced dogs that are trained exclusively as assistants for blind or disabled people.

**Breed History:** Records reveal that this gentle breed was developed in the late 1800s, by crossing a light-colored Flat-Coated Retriever with the now-extinct Tweed Water Spaniel. The first Golden Retrievers were exhibited in 1908.

## BREED Facts:

Country of Origin: Great Britain  
 Date of Origin: 1800s  
 First Use: Game retrieving  
 Use Today: Companion, gundog, field trials, assistance dog  
 Life Expectancy: 13 - 15 years  
 Weight Range: 60 - 80 pounds  
 Height Range: 20 - 24 inches
