From the Presidential Kennel:

It's hard to believe it is time for another edition of Ruff Notes—boy, is time flying! I lost almost two weeks of “regular” time by going to the Doberman National Specialty in Colorado Springs; it was a lot of fun, but I'm going to be playing catch up with work and school for awhile yet. The Obedience Trial portion of the National was a little eye opening for me, and I've got to tell you that the ring was definitely not up to MBDTTC standards. Like the Conformation ring, the Obedience rings were in a “ballroom” of the hotel, but can we say “small ballroom”? Let's put it this way: they fit the two rings in the ballroom and that's about it---the ring entries were the two doors, and the steward's table was right beside the entrance. Worried about your dog leaving the ring? No problem----there's nowhere to go! Spectators were limited to peeking in through the doorway, a rather hazardous place to hang out due to the crowded condition of the hall. But Rumor finished her CD (yea!), so I'm content.

Presidential Kennel Continued

The Doberman Pinscher Club of America has three Top20 events: conformation, obedience and, the most recent addition, Agility. One of the Top20 competitors in Agility was a truly amazing woman: armless, she ran the course in bare feet, directing her dog with voice, foot and body language. (I wish that I had my Top20 catalog so that I could give you her name, but it “walked” away from me during Top20 Conformation...grrrrrrrrr.) I am still in awe of her performance...I couldn't have even executed her first move, which was leaving her dog at a sit stay with a foot signal. I guess that I'll have to order a copy of the video so that I can force it on people...they were a very special team, and one that I won't be forgetting soon. Although they didn't win the competition, they did have the whole audience on its feet. Speaking of winning, guess what organizers did to fill time while the scores were being tabulated? The Top20 competitors were divided up into two teams and they ran Agility relay races: jumps, weave poles and a tunnel at the end to get them headed back to the right direction. Wouldn't that be fun to do at the Fair demo....?

Classes are back in session, and kudos are owed to the volunteers who show up to do Registration and Leashes & Collars at our three training locations each session: you guys are great, and we couldn't do it without you. Thanks also go out to Marilyn for running the Board meeting in my absence---extra kudos for setting a new record for the shortest club meeting ever....we'll have to make you run EVERY meeting ;)

Dog Parks

Meeting you are invited to attend

A designated area by a public agency is a validation of the importance of dogs in our lives and is something that in concept needs support even if personally we would use it rarely or not at all.

Listed below is information on a meeting scheduled by the Group Of Interested Dog Owners who are working to establish the 2 parks in the Watsonville area: one is at the soon to be completed Franich Park on E. Lake Avenue and the other is at Pinto Lake County Park where we have held our Obed Trials in the past.

Both city and county Parks and Rec. Departments are looking favorably at the projects. The County showing great enthusiasm right from the beginning.

Fence building is the responsibility of the Dog Owners with all other responsibilities being taken on the Parks and Rec. Departments.

At a recent MB board meeting I suggested that MBDTC fully endorse the proposal with hefty contributions to help in making this grass roots effort a reality. All donors will be publicly acknowledged for their donation.

How Many Dogs does it take to Change a Light Bulb?

Submitted by Trainee Trish Duarte

1. Golden Retriever: The sun is shining, the day is young, we've got our whole lives ahead of us, and you're inside worrying about a stupid burned out bulb?
 2. Border Collie: Just one. And then I'll replace any wiring that's not up to code.
 3. Dachshund: You know I can't reach that stupid lamp!
 4. Rottweiler: Make me.
 5. Boxer: Who cares? I can still play with my squeaky toys in the dark.
 6. Lab: Oh, me, me!!!! Pleeeeeeeeeeeze let me change the light bulb! Can I? Can I? Huh? Huh? Huh? Can I? Pleeeeeeeeeeeze, please, please, please!
 7. German Shepherd: I'll change it as soon as I've led these people from the dark, check to make sure I haven't missed any, and make just one more perimeter patrol to see that no one has tried to take advantage of the situation.
 8. Jack Russell Terrier: I'll just pop it in while I'm bouncing off the walls and furniture.
 9. Old English Sheep Dog: Light bulb? I'm sorry, but I don't see a light bulb.
 10. Cocker Spaniel: Why change it? I can still pee on the carpet in the dark.
 11. Chihuahua: Yo quiero Taco Bulb.
 12. Pointer: I see it, there it is, there it is, right there.....
 13. Greyhound: It isn't moving. Who cares?
 14. Australian Shepherd: First, I'll put all the light bulbs in a little circle...
 15. Poodle: I'll just blow in the Border Collie's ear and he'll do it. By the time he finishes rewiring the house, my nails will be dry.
- The Cat's Answer: "Dogs do not change light bulbs. People change light bulbs. So, the real question is: How long will it be before I can expect some light, some dinner, and a massage?"
- ALL OF WHICH PROVES, ONCE AGAIN, THAT WHILE DOGS HAVE MASTERS, CATS HAVE STAFF.

November General Meeting

Please put the **November 15** General Membership Meeting on your calendar. The meeting will be at First National Bank in Watsonville (across from Saint Patrick's Church in Watsonville).

This is our annual Thanksgiving potluck meeting. We are working on getting someone to provide the turkey or ham and asking everyone else to bring a potluck dish to share. Volunteers to bring the main dish will be greatly appreciated.

In addition to a potluck dish, you need to bring your own beverage, plate, napkin, and silverware.

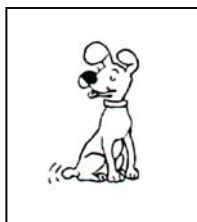

The dinner will begin at 7:00 with the meeting to follow. You will be contacted by phone and e-mail (if available).

Please contact Marilyn to let her know you are coming--either respond by e-mail (mrunyan@cruzio.com) or phone (722-1621) or by responding to the phone committee when you are contacted. We need to make sure we have a quorum and that we know how many to expect.

Ask Abby and Annie

Well, here I was looking up a yummy doggie meatball recipe to put in this column, when the barking started. Thinking it was the UPS man, I tried to ignore the girls, but they were going nuts. Turns out that there was a little girl in the street plaintively calling for her dog. The girls wanted to help look, so I let them out onto our 2nd story deck to have a look-see. They ran out onto the deck and Annie started running around frantically. Next thing I knew, she was herding an injured pigeon *into* the house! Now, I love animals, but I don't like anything that flutters so I was not a happy camper. I put both girls on a down, which Abby held but Annie was just too excited to let her bird get away. I finally herded the *girls* outside. That left me inside with the dreaded fluttering thing. Remembering that Hank had raised pigeons while growing up in Brooklyn, I called him at work. He helped me to gently get the bird outside, onto the deck.

The story doesn't end there, however. In the morning the bird was gone from it's temporary coop on the deck. Hank went to look for it and found it down by the pool. Knowing that our neighbors have a cat that loves to kill birds, I got dressed and went to check on it. There was the cat -10 feet from the pigeon. Now, the pigeon is in a dog crate, with food and water and I still don't have time to find my recipe for doggie meatballs. Well, at least this pigeon won't be some cat's Thanksgiving dinner.
